

Welcome to AIMS South Africa!

Computing Facilities Information

MMED 2019

Login details on AIMS desktops

Username: guest (no password needed)

AIMS desktops run a customized Debian GNU/Linux.

Files of the guest login are local to each desktop.

Please use your private or home institution's webmail.

Please do not move or unplug our equipment.

Visiting devices (campus only, not outside accommodation)

Connect to the wifi network "AIMS" and fill in the form

at regme.aims.ac.za, with group: *workshop* and password:

#pancakes. Once submitted it is forwarded to IT for approval.

During office hours approval is typically less than 10 minutes.

If you have MAC Address Randomization turned on, please turn it off for "AIMS" as it is not compatible with our network (Settings > Network & Internet > WiFi > Manage Known Networks > AIMS > Properties > Random Hardware Addresses > Off).

Printing

Printing facilities are primarily intended for workshop co-ordinators. Please conserve trees.

Acceptable Use Policy

By using the AIMS network you automatically agree to the Acceptable Use Policies of our Internet Service Provider, the Tertiary Education Network, as well as South African law. You can read those policies here:

www.tenet.ac.za/doc/aup-3-2.pdf/view
www.internet.org.za/ect_act.html

Use of this network is always monitored on an aggregate basis, and when incidents need to be responded to we may look at individual usage histories in detail.

Assistance

IT staff are at help@aims.ac.za Office 110.

If you would like AIMS-Desktop installed on your personal laptop (usually next to Windows), please come and see us.
